Building a home.

MCC is a vibrant community of people with a wonderful faith and expression of devotion to God. We are in a season of challenge for us as we are growing and looking for opportunities to bless this place that we are part of.

This season will not only challenge our faith but our resolve to press on toward the goal: A purpose bigger than ourselves that will be an influence of God's presence in our community.

This building project will ensure that we maximise our present capacity and prepare for the future. Building a new venue as a home base for the church is a great commitment to God's great purposes on the Earth.

My call is that we make a commitment to equal levels of sacrifice. We understand not everyone will be able to donate the same amount so it is important to give in proportion to God's provision in our lives. As we all seek the LORD about what we are going to give, then together, with faith we will achieve our goal to pay for a new home.

So I ask on behalf of the Elders that each one of us would prayerfully consider how we can partner with God and others in our church community to complete this exciting task for the glory of God and for future believers.

Blessings,

Pete

Senior Pastor
